

Specification	Liquid PVC paste, light grey, for welding of PVC adhesive holders to a PVC roof membrane (see table) Weight: 5,0 kg
Article No.	46 00 01

Customs tariff No.: 39042200

description

Content of the canister	5 Litre
Average quantity needed for one PVC adhesive holder	6 Gram
The quantity is sufficient for about	750 pieces

Suitable for the PVC- roof membranes listed in the following table

The solvent welding agent can be used with the following roof membranes:

Producer of the roof membranes	Product/trade name	Material basis
Henkel Bautechnik GmbH	Alkroplan A	PVC-P
	Alkroplan B	PVC-P
	Alkroplan L	PVC-P
	Tectorfin RV	ASA-PVC-P
	Wolfin IB	PVC-P
	Wolfin M	PVC-P
	Wolfin GW SK	PVC-P
Flachdach Technologie GmbH & Co. KG	Rehnofol C	PVC-P
	Rehnofol CV	PVC-P
	Rehnofol CG	PVC-P
Sika-Trocac GmbH	Trocac S	PVC-P
	Trocac SgmA	PVC-P
	Trocac RV-s	PVC-P
	Trocac SGK	PVC-P
	Sikaplan G	PVC-P
Bauder	Thermofol M	PVC-P
	Thermofol	PVC-P
	Thermofol	PVC-P
Alwitra GmbH	Evalon	EVA
	Evalon V	EVA
	Evalon GV	EVA
Hirler	VAEPLAN M	VAE
	VAEPLAN F	VAE
	VAEPLAN GV	VAE
	VAEPLAN V	VAE
Flag	Flagon	PVC-P
Mapei	Mapeplan M	PVC-P

We generally recommend to ask roofers or producers if the solvent welding agent can be applied on the roof membrane.

Subject to technical modifications

Suitability of further membranes on demand.
